SERVANT LEADERSHIP STYLE AND BELIEF

Being a servant leader is about developing a positive mindset of the modern officer. Today, we are in a challenging time within law enforcement. Crime rates are soaring, and there is a strong need to create a path to move forward while re-engaging and re-igniting each officer's personal passion for the profession. Serving our communities in a positive manner is a vital key factor. It is this Servant Leadership belief and style that I will bring with me to Brazoria County Precinct 1 Constable's Department.
